DIRECTORS

R. T. TYLER, C. A. HOLCOMBE, J. NAYLOR, W. H. BALTZER
J. W. COWGILL, W. L. MCCUTCHEON, M. B. SHAW.

Mr. Jorgenhauser
Used to Worry

Because his advertisements in the local papers didn't seem to attract attention—didn't draw a crowd to his store and help him to sell goods.

NOW HE DON'T WORRY

Why? Because he has found that he can get fifty first-rate ads, chock full of suggestions, the best that are appearing in his line in newspapers the country over a dollar—and that with their help it is mere play to range ads which fill the bill to a "T." You can do the same. All lines. Send a dollar to

AD SUPPLY BUREAU.

8 Devonshire St., Room 24,

BOSTON, MASS.

DR. S. K. DAVIDSON H. F. REMLEY,
Dentist. @ Attorney-at-Law.

HICKMAN, KENTUCKY. Office up stairs, Holcombe Building.

Office over Cowgill & Cowgill's Drug Store.

HICKMAN, KENTUCKY.

Will practice in all Courts of the State.

Local and Personal.

Mr. Scott conveys at Paducah, next Monday.

Dr. Dalney will preach at the Christian Church, Sunday.

The Embroidery Circle meets Saturday eve with Mrs. Brevard and daughter.

Every man is proud of his name. Miss it, and you'll find out this is true.

Mrs. Arthur Johnson, of Cayce, has been spending the week with Hickman friends.

Fresh meat delivered to any part of town by W. M. Shaw.

Especially do those people glory in the position of the press who borrow a newspaper.

Mrs. Will Garrison, of Union City, visited her parents, Mr. and Mrs. Jno. Greenwood, this week.

Stephen E. Smith, aged about 75 years, of Princeton, at Moscow, Tuesday, November 18th.

Ed. A. P. Johnson will preach at St. Herman next Sunday, morning and night. Everybody invited.

Elmer Hewitt has resigned the pastorate of the Baptist church at Columbus, Indiana, to take effect Jan. 1.

Wanted a person to paint to the city for the purpose of electric lights. It went dark by seven o'clock.

Just received at Buck's, a nice collection of solid gold wedding rings.

The family of Mr. G. E. Eaker moved to Hickman this week, from their home in the bottom, near Reed's Lane.

Will Thompson, of Tupelo, Miss., and Mrs. Adrienne Brevard, of Union City, were guests of Miss Marie Brewster this week.

The Rev. T. U. Dudley, Bishop of Kentucky, preached a most excellent sermon to a large congregation at St. Paul's Church, Hickman, Tuesday night.

Want to Raffle for your holiday gifts in the name of the Red Cross.

Misses Sara Prestwood, John and Bert Milner, C. P. Danse, Mott Ayers, Fulton, and County Clerk Sam Lu-
is are over at Big Lake, Ark., hunting.

It is not the sunshine of one day or many, that brings out the flow-
ers; some merchants wonder why

the people. This can be done through the medium of a great newspaper.

Now is the time, therefore, for every one to buy a copy of the best and most reliable newspaper obtainable. The Miss Weekly Republic covers the whole field of political news. While it is the most reliable newspaper in the country, it is not the only political paper without prejudice. The Miss Weekly Republic is the only paper that is not of any other party, political or otherwise.

It is the paper for that large class of readers who cannot afford or do not have access to the best political papers.

Attention is also called to the Republic's Sunday Magazine. Its half tone illustrations alone are worth the subscription price. It is the best magazine in the country, written by the best literary talent, embracing a variety of current subjects of interest. Novel features and absorbing interest are illustrated and carried up to date.

For the benefit of the ladies the latest fashions are handsomely illustrated. The Republic Sunday Magazine is also interesting to every member of the family.

The subscription price of the Semi-Weekly Republic is \$1.00 per year.

Both papers are now being offered at the very low price of \$1.50 a year. To secure this low rate both must be ordered together for the same amount.

Address all orders to THE REPUBLIC.

St. Louis, Mo.

Send to W. M. SHAW for choice fresh meats of all kinds at the old Rockwood Telephone 36.

The women have completed the first article across the Ohio. The approach to the bridge is not yet completed. It will be a week or two before it will be ready for public use.

Miss Winnie Hackard, the attorney and Mrs. Hackard, lab in the office of the Hickman Telephone Exchange. The Exchange Courier under obligation by her acts of courtesy and kindness.

BUCK is the best posted and most practical opinion in the city.

BUCK is the best posted and sold solid gold Glasses for \$10.00.

Lee Davis, col. charged with stealing a diamond ring and money from Frank Knouse, Fulton, was committed to the county jail to await trial at the January term of the Fulton Circuit Court.

The Tree Barber Shop, the place to get your shaving, haircutting and other personal services.

Proprietary service and courteous treatment.

A. L. HOCKING, Prop.

The grand meteoric display

for the night of the 15th, was

seen by all the people.

Many persons were up on points of

observation but not a star fell, and not a shooting meteor was anywhere to be seen.

Hugh M. Sanders, for years editor of the Bardwell Star, brother of Prof. J. H. Sanders, and former citizen of Fulton, died in Paducah, last week of stomach trouble. He was of the trust of friends, and as honest and conscientious a man as we ever knew.

He listened a moment and then exclaimed:

"I'll be darned if that ain't Bill's voice!" Then he hung the ear-

piece up and tapping the battery

box significantly and knowingly said:

"Now, open her up and let see

what he's writ. I'd know his

hand write any whar, an' he

writ what we said through this

thing," taking down the ear piece.

"I'll talk him and tell him what

I want to."

We informed him that a letter

didn't come with the message, and

looking at us with his mouth wide

open he exclaimed:

"Well I'll be darned!"

Agassizine Surrounded.

Local reports of the last few days indicate that Agassizine and his wife have not escaped but are now

practically surrounded. The Ameri-

can forces are closing up, and

Major Gen. Oates reports that Young

believed to have established

heads 35 cents, at Wilson's Book Store

communication with Wheeton.

TO INCREASE PENSIONS.

General Wilbur R. Smith, Secretary and Treasurer of the National Association of Mexican War Veterans, is making an earnest effort to have the pensions of the veterans raised from the present rate of \$5 a month to a sum which would make them independent.

At the last meeting of the Association at Indianapolis, September 13 and 14, a resolution was unanimously passed requesting the United States government to increase the existing pension rate.

Acting on the resolution, General Smith is sending out letters to Governors of States, Senators, representatives and other prominent men to call their attention to the matter.

There are just 9,204 Mexican War veterans on the pension roll.

They are now reached or passed the age of 70 years, and 95 per cent are unable to engage in any occupation or profession. It is estimated that in ten years the number will be decreased to 5,000 and in twenty years very few indeed, if any, will be living.

The pension asked is thirty dollars a month, and with the number of survivors so small and the amount so large, it would not be possible to the government.

General Smith is sending out letters to the government to call their attention to the matter.

GEORGE WARREN, Publisher.

HICKMAN, KENTUCKY

KENTUCKY SQUABBLE.

Reported at Frankfort That Gov. Bradley Will Declare Martial Law in the State.

THE RUMOR NOT GENERALLY BELIEVED

The Determination of the Election Depends Upon the Contests Which Have Been Raised.

A Mob Gathers at Vancouer and Threatens the Commissioners for Throwing Out Two Precincts of Lewis County—The Action Recommended.

FRANKFORT, KY., Nov. 14.—Senator Goebel and the democratic leaders are still waiting for the final results of the coming board of election in Jefferson, Christian, Knox, Johnson, and other counties. It is claimed that enough fraudulent votes will be thrown out in these counties to give Goebel a majority on the day of the returns. The city was excited Monday night over reports that the government would refuse to declare war in the event that Knox and Johnson counties are thrown out and that he will refuse to recognize Goebel as governor under such conditions. This rumor of martial law is not generally credited, though there is almost certain to be a serious clash between Bradley and the Goebel forces.

MAINE's legislature ordered a bust of ex-Speaker Reed.

HUNDREDS of Americans are at work in Russian factories.

SPAIN has had 31 years of war during the past century.

In the polar regions the sea contains less salt than near the equator.

In India only one male in ten and one female in 160 are able to read.

The entertainment of royalty costs English society each year fully \$1,000,000.

A FOUL Chinaman considers it a breach of etiquette to wear spectacles in company.

It is estimated that about 2,000,000,000 bicycles have been made in Europe and America.

The Florida's Hall Association of the United States carries \$800,000 insurance on hothouses.

ALTHOUGH her husband is worth \$500,000, Mrs. Paul Kruger does the family cooking.

PRESIDENT HADLEY of Yale believed in the old maxim about early rising. He is up at 6 o'clock every morning and generally in bed at 10 or 11.

The Moravians are preparing for a big campaign in St. Louis. A score of their missionaries are preparing to make converts that day.

ASPARAGUS is so plentiful on the Eusebian steppes that the cattle eat it like grass. The seeds are collected and dried and used as substitute for coffee.

Barney's 6,000 and 10,000 passenger cars in the United States take a vacation every summer, according to a firm of agents of estimating. The speed limit is 15 miles an hour.

AN AMERICAN has arisen to explain that stage fright really comes from a disordered digestion. He argues from this that persons meditating public appearance should not alter their diet and adhere to regular habits.

A FLORIDA man has just succeeded in hatching an ostrich egg in an incubator. This is the first successful effort of the kind in this country, though it has often been tried in California. It took 41 days for the bird to come through.

IT is curious to know that wood tar is prepared just as it was in the fourth century B. C. The bark is charred in a hole dug into which the barrel is placed and covered with turf. A fire is lighted underneath, and the tar drips slowly into the barrels placed to receive it.

STATISTICS which have been collected in the United States show the average cost of raising wheat to be 24 cents a bushel and the cost of corn 27 cents. In both cases there are included interest on the land, with the cost of implements and labor.

More fights are common in English service, where troops are taught how to march, charge, retreat, form in line of battle, and do all the things which are likely to be required in actual warfare, except to kill the soldiers one by one. The soldiers take great delight in it.

A SYSTEM is to be established in Philadelphia this fall whereby teachers and their classes, one-half day, once or twice a year, to Fairmount Park and to the zoological gardens, such visits to be regarded as a part of the regular class duties.

IS the Transvaal July and August are the midwinter months; October, November and December constitute spring, and summer sets in shortly after Christmas. January is the hottest month, July the coolest. The thermometer seldom goes over 90 degrees or under 25.

IT is a curious fact, that in many cases it seems indisputable, that two persons living many years, with the same likes and dislikes, the same expression, features, and most certainly in character, but more so from the point of features. No doubt it is for this self-same reason that the wives of pretty and lady-like names for the bringing up of their infants, who not possessing beauty by heredity, may attain it by the simple method of constant impressionable contact.

IN the Cuban Islands, a son of the Cuban leader, is on his way to fight the Philippine rebels. In an interview at Omaha he said he hoped some day to be president of the United States.

A WELL known German scientist has discovered that the aroma of tobacco is due to microbes, and it is said he will patent it, if he can, a process for making cheap cigars smell like expensive ones.

IN Germany notable bread is used by the natives of Thuringia to feed their horses, especially when they are worked hard in very cold weather. The animals thrive on it, and their health and strength are excellent.

THE VOTE IN OHIO.

Official Returns Received From a County in the State Given Nash, for Governor, a Plurality of 30,518.

COLUMBUS, O., Nov. 10.—The first abstract of votes was completed and received at the state capital yesterday. The returns indicate that A. W. Patrick, democrat, may have been elected lieutenant governor. The abstracts from the vote in Warren and Greene were received and in two counties Caldwell ran 700 behind Nash, and Patrick 700 ahead of McLean.

Patrick carried Franklin county by 50, while Nash carried it by 1,700. Patrick carried Tuscarawas county by

JUDGE NASH.

500 and Nash by 200. In Cuyahoga county Patrick was away ahead of McLean.

CINCINNATI, O., Nov. 10.—The statistics at the republican headquarters have been busy all day Wednesday and Wednesday night endeavoring to secure some accurate figure on the plurality of Judge Nash, the republican candidate for governor, and Wednesday night an unofficial tally of pluralities in the county was completed. This shows that at 57 counties Nash, and in 31 counties McLean has 34,025 over Nash. This gives Nash over McLean in the state 40,802. It is not believed the official returns will make any important change in these figures.

The republican figure on the legislature is as follows:—Democrats, 45; Republicans, 44; doubtful, 2; Senate—republicans, 18; democrat, 11; doubtful, 2.

COLUMBUS, O., Nov. 11.—Complete returns show several democratic gains in the legislature. Hugh Manchester, democrat, is the elected representative in Marion; P. A. Saylor, democrat, is elected in Preble, and Robert Irwin, democrat in Ross county.

The Election in Iowa.

DES MOINES, Ia., Nov. 10.—Returns from 90 of the 99 counties of the state with estimates on the others.

GOV. SHAW.

that the republican claim of 60,000 plurality for Gov. Shaw is mainly maintained, and may go slightly above that figure.

Gov. and Election Officers Voted.

CORVOROK, Ky., Nov. 11.—Judge Wheeler Thursday issued warrants for the arrest of Mayor Jos. L. Rhinebeck, began action in the Knob county circuit officers to compel the county election officers to certify the vote to the state board of election. The election commission is over 42 ballots from the first precinct in the election filed by Taylor's counsel asserts that the election board's purpose is to throw out the entire county. The contests have aroused much feeling in the localities affected. One of them involves the vote of Knox county which gave Taylor 1,300 plurality.

THE state visited by hundreds of people interested in the result, their avowed purpose being to see that justice is done. Counsel for Candidate Taylor asserted in the Knob county circuit officers to compel the county election officers to certify the vote to the state board of election.

IS HARD PRESSED

Col. Hayes Captures Aguinaldo's Private Secretary and His Escort.

The Insurgents Are Retreating Toward Bong-ong, Where the Capital Has Been Transferred—Aguinaldo Al-most in the Trap of Gen. Otis.

MANILA, Nov. 14.—Americans save practically closed the trap in which it was intended to case Aguinaldo and his army. The first capture was Aguinaldo's secretary and his escort made by Col. Hayes near Capiz. General Lawton is at Carrangian. His advance, led by Gen. Young, is at Lupto Tangu, San Nicholas, stretching in a semicircle toward the Gulf of Lingayen.

MANILA, Nov. 14.—The whereabouts of Aguinaldo and his army and cabinet is a perfect enigma. Gen. Otis has received the Aguinaldo's secretary issued a proclamation transferring the capital to Bong-ong, giving as a reason for the step the unsanitary condition of Tarlac.

It is supposed that the leaders of the insurrection who are not already at Bong-ong are retreating to that rugged, mountainous region. Tarlac, whether they are training with the army, how many soldiers they were able to hold together and whether the leaders of the troops have got beyond Gen. Lawton's line are all unknown. It is hoped, however, that Gen. Wheaton's advance, having effected a cordon from San Fabian, San Isidro, Gen. Lawton has 6,000 men and Gen. Wheaton 2,700—a small force to control so many miles, but it commands the main roads by which the insurgents must move to the north east.

With the Americans advancing at the present rate they could drive the insurgents from Bong-ong in a fortnight, and it is possible for the rebels to establish another capital in Luzon which can not be captured within a month.

The rapid approach of the Americans was a complete surprise to the insurgents, who had intended to move slowly, as they did from Manila to Angeles. The Filipinos thought it impossible for the Americans to make headway in the mud which prevailed everywhere, and the sudden invasion astounds the natives along the line of Gen. Young's march, who had been told that the Americans were confined to the suburbs of Manila.

Maj. Marsh's battalion of the 3rd regiment, which includes many old rough riders from the southwest, attacked 400 Filipinos three miles from San Fabian, on the Dagupan road, on Nov. 12. The Filipinos were driven to the outposts. Maj. Marsh found them entrenched across the river. Their trenches had been made after Gen. Wheaton's arrival. Maj. Marsh charged them a portion of his battalion fording the stream and part crossing by the bridge. When the Americans approached the Filipinos, afraid to show their heads, poised their rifles above the trench and fired blindly. Maj. Marsh's force pursued them for a mile. Fourteen dead Filipinos were left behind, including the lieutenant colonel commanding on the field. Two Americans were wounded.

The insurgents have resumed their activity in the Carite province, threatening an attack on Iloins. Yesterday they attacked Calamba in the usual fashion. A nightily fusillade between the marines and the hundred insurgents who have scattered over the province, and the salmons between Carite and Novedela is plainly heard in Manila. On Saturday the Filipinos attempted to entrap the marines by landing a force from canoes behind them. The searchlights of the Petrel discovered the preparations to embark, and a few shots from the Monadnock and Petrel's guns spouted the game.

Three More New Cruisers Wanted. WASHINGTON, Nov. 14.—The special committee of the Senate, at its meeting Monday, took up the subject of new construction on the navy for the coming year. This was at the request of the secretary, and will form the basis of his recommendations to congress for new vessels during the coming session. This matter is confidential, but it is said that the committee is expected to have new recommendations for three new cruisers of the improved Olympia type, such as congress failed to appropriate for last year.

Legal Hanging in Mississippi. YAZOO, Miss., Nov. 14.—Ed Grandison, a notorious Negro murderer, thief and all round crook, was hanged here Monday for the murder of Deputy Sheriff Stonesstreet and Everett, in this county in July of last year.

Buying Mineral Lands. MINNEAPOLIS, Minn., Nov. 14.—A special from Virginia, Minn., says it is reported from reliable sources that the Nelson Lumber Co. has purchased the Nelson Lumber Co.'s mineral lands on the Mesha range. The consideration was \$1,000,000.

Buying Mineral Lands. FULTON, Ill., Nov. 14.—A thousand Hollanders has an enthusiastic meeting here Monday night and passed resolutions of sympathy with the Boers and condemnation of England.

IN THE FAR EAST.

Nothing Known Among British Diplomats of an Aggressive Action by Japan and China Against Russia.

LONDON, Nov. 14.—Careful inquiries reveal nothing extant in diplomatic circles here to justify the alarmist views taken by a section of the press regarding the intentions of the two serioous belligerents in the Far East. No exact account of the movements of the Chinese and Japanese naval forces is available, but the axis indicated by advices from Shanghai during the last 24 hours is regarded as incredible. For a long time it has been known here that China and Japan were closely allied, but neither British nor American diplomats seem to believe that this alliance is of an offensive nature.

At any rate it can be asserted positively that if Japan and China contemplate aggressive action against Russia, Lord Salisbury is not aware of their intention, and it is scarcely probable that those powers would decide upon such a course without at least consulting Great Britain. The nature of things, would be their ally, whether active or passive.

However while the foreign officials have no information tending to confirm recent sensational reports, they have come to regard the eastern problem as the American station. Just previous to her assignment to that duty she had been overhauled at the Mare Island navy yard, San Francisco, and therefore was in prime condition for her duties. The Charleston is one of the vessels of recent construction and belongs to the United States. The vessel was transferred to the navy department by Adm. Dewey, the navy department having her for the purpose of utilizing ammunition and other supplies. The vessel was to be used as a gunboat at the "new navy." She has a full complement of officers and crew.

Lient. McDonald describes the Charleston when he last saw her as hard and fast a ground, with her bottom stony, and well out of the water. She is hard a ground on a hidden reef in 35 fathoms of water on both sides.

WENT ON A REEF.

The Cruiser Charleston, 300 Miles Patroling the Northern Coast of Luzon, Wrecked—All on Board Were Saved.

MANILA, Nov. 14.—The United States cruiser Charleston which has been patrolling the northern coast of Luzon, was wrecked on a reef of the northwest coast Tuesday, November 7. All on board were saved.

The cruiser Charleston, which was built in San Francisco in 1888, had a displacement of 3,730 tons, was 312 feet 7 inches in length, 46 feet 2 inches in beam and 21 feet 8 inches in draught. She was steel, having two propellers, two funnels and two masts with military tops.

She had the following armament: Two 6-inch guns, four 5-inch guns, four 3-inch guns, two 3-pounders, two machine guns, and one light gun with four torpedo tubes.

WATSONVILLE, Nov. 14.—The Charleston has been in Asiatic waters for more than a year. She was one of the first vessels to be sent to Manila after the destruction of the Spanish fleet by Adm. Dewey, the navy department having her for the purpose of utilizing ammunition and other supplies.

At the time of the wreck she was en route to the Mare Island navy yard, San Francisco, and therefore was in prime condition for her duties. The Charleston is one of the vessels of recent construction and belongs to the United States. The vessel was transferred to the navy department by Adm. Dewey, the navy department having her for the purpose of utilizing ammunition and other supplies.

The vessel was to be used as a gunboat at the "new navy." She has a full complement of officers and crew.

Lient. McDonald describes the Charleston when he last saw her as hard and fast a ground, with her bottom stony, and well out of the water. She is hard a ground on a hidden reef in 35 fathoms of water on both sides.

A TERRIFIC EXPLOSION.

Magnitude of Nitro-Glycerin Lets Go Near Magazine and a Man and Two Horses Were Blown to Atoms.

TEFFIN, O., Nov. 14.—A magazine used by Bradford nitro-glycerin factory to store product of their factory, and located two and a half miles east of the village of Bradford, exploded noon at 1:30. The shock was heard at towns within a radius of 40 miles, and the effects of the explosion in the immediate neighborhood were terrific. The magazine is located in the woods a quarter of a mile from any dwelling, and this alone prevented a terrible loss.

THE CHICAGO ANARCHISTS.

The Workmen's Union of Havana Held a Meeting Commemorating Their Fatally Wounded Speeches Were Made.

HAVANA, Nov. 13.—A meeting of the workmen's union was held to commemorate the fate of the Chicago anarchists, described by the speakers as "the Chicago martyrs." About 300 persons attended.

One night a bomb exploded in a memorial hall of the Jornada, the labor organ.

It led to a suicide of a member of the hall, and the police believed he received the full effect of the explosion.

He was blown almost to atoms and only a few shreds of his body were found, and pieces of horsehair were found miles away. It is supposed that he had a companion but it is not perfectly known.

The explosion was due to a bomb which received the full effect of the explosion.

THE HICKMAN COURIER.
George Warren.

HICKMAN, KY.,
FRIDAY, : : NOV. 17, 1899.

THE KENTUCKY ELECTION.

Calmness, Fairness, Honor,
Should Overrule All
Else.

The result of the Kentucky election presents most serious conditions, but we have an abiding faith that fairness and honesty will prevail, for an immense majority of the people, Democrats and Republicans alike, want nothing else. The State campaign has been the most bitter in the history of the State, and, therefore, the way to reconciliation seems the more difficult. To begin with, an immense number of Democrats believe, and are thoroughly honest in the belief, that the Republicans stole the State of Kentucky for McKinley in 1896. This belief led to the enactment of what is called the Goebel election law. On the other hand, there are thousands of Republicans and many Democrats who, equally as honest, believe that the Goebel law was enacted by Goebel and others for the main purpose of countering the Republicans out of stealing the State if necessary.

Unfortunately the vote in the State is very close, and each side believing that the other is capable and contemplating fraud and robbery. The COURIER is of the opinion that this great bitterness and distrust pertains more exclusively to the active politicians, and that a great majority of the people want the election settled fairly and honestly, no matter who it elects Governor. Who may be Governor, is a small thing compared to the honesty of the ballot.

That irregularities occurred in the election, no one doubts; that there was some fraud, some dishonesty, some corruption, we fear is true; but it is, perhaps, bitter need to charge that such was all on one side.

In Nelson county, 73 votes were cast for Wm. S. Taylor and 1198 for Wm. P. Taylor. The County Commissioners give Wm. S. Taylor, the Republican nominee, only the 73 votes, when in all truth the 1198 denied him were intended to be cast for him. They say that the law strictly forbids them being given him. However this may be, there should be some way to give these 1198 votes to Taylor, for they were honestly intended for him.

On the other side, in Knox and Johnson counties, it is said that tissue ballots were used, and that in one Louisa precinct 127 more ballots were counted than were voters in the precinct, and that like frauds and wrongs were perpetrated in other parts of the State which increased Taylor's vote more than enough to offset the Nelson county advantage to Goebel.

Outsiders cannot determine the truth of such charges. But all honest men can say, and should say for the proper officers, to disown such wrong and fraud, no matter by whom perpetrated or in whose favor, and let the man fairly elected be inaugurated Governor of Kentucky.

In 1896 enough Gold Democrats voted the Republicans ticket to have Kentucky counted for McKinley, and this year enough Brown Free Silver Democrats voted for the Republicans to come very near, if they have not absolutely, given the State to Taylor. Tit for tat is fair play; but isn't it for Democrats to stop such foolishness?

Imperialism Means?

Richard Croker, in an interview published in the New York Herald, is reported to have said that anti-imperialism will be the chief issue made by the Democrats in the presidential campaign. He did not define what "anti-imperialism" was intended to mean, which he should have done, for all good Democrats do not construe the term the same way.

LOCAL NEWS.

We look upon the man with scorn Who always comes to blow his horn, And wherever is it thus? Because in boasting of the way His worth increases day by day He leaves us little chance to say Nice things concerning us?

—County Court was in session Monday.

—The new Governor of Kentucky should be inaugurated Dec. 12th.

—Mr. Watt Gardner, of Terrell, Tennessee, was in Hickman, Sunday.

—Mrs. Woodford, Sailor, 80 years of age, died in Union City, Sunday.

—Several couples drove over to the minister at Union City, last week.

—It never occurs to a boy that he will someday be a little man himself.

—Says an old bargee: "A wife is an attachment that makes a man hush."

—FOUND—Steel frame Spectacles, on river road below Hickman. Call at this office.

—Don't hide your light under a bushel; it may make some one a peek of trouble.

—The wise merchant who expects to get his share of the season's trade will advertise.

—The family of Wm. Douglass left Saturday night for New Madrid, Mo., where they will remain in winter.

—The Liverpool Herald has a typesetting machine, the first ever introduced into a country printing office in the South.

—For undressed Lumber of all kinds, apply to SHAW & WILLIAMS.

—The State Commissioners count the vote of Governor and State Officers, Dec. 4th, the fourth Monday after the election.

—There will be some changes among our merchants next year, and the prospects are that trade will be increased and enlarged.

—We have no doubt observed that it is only after you have made a mistake that people begin to tell you how it could have been avoided.

—For Bargains in Jewelry call on Randie as he is closing his stock out at a big sacrifice.

—LOST—At the Woodland Mills Building, an Confederate Re-union, gold rimmed double lens spectacles. Return to the Course office.

—Be kind enough to send the names of your visitors to us, or if you are going on a visit let us know. Then we will direct you to our friends.

—The Baptist church at Union City, as a religious body, voted a petition to Congress not to permit Roberts, the Mormon, to take his seat in Congress.

—Coon hunting is now all the rage among the country boys. Every available hour is given up to service, and our canine friends are in evidence, too.

—The Woman's Exchange of Union City, asks any lady who would like a German or Swede woman for house work to notify the Exchange through the mail.

—SECRETARY, pro tem.

Buy your Carpets and Mattings at H. Buchanan's Closing Sale.

—Lightning struck the house of Mr. C. H. Hackett, Tuesday morning, tearing the roof and nearly demolishing the room. Fortunately none of the family were injured, and fortunately the house did not ignite.

—The road tax was defeated in Hickman County by only 23 votes. Carlisle and Bathurst voted it, and refuse to seek to the tax in the next year. Next time it will be in Hickman County, and then Fulton will fall in line.

—We are here to stay and doing business at the old stand, opposite Witting's store. No one will appreciate the pleasure in trying to please you than we barbers. WILL CHROWELL, R. U. CALDWELL and H. R. IVY.

—A man put his master very apply when he said his horse loaned to hogs is cash and a good investment, safe and at a very large interest. A hog is a condenser; he will put ten bushels of corn into his body, and then sweat some whistles, taste and satisfaction. He converts corn into cash and can buy what he will.

—To all my old customers that have Wm. Reeves & Co. from Buck Hill, I will clean them good and guarantee to keep time, for 40c.

—ABUSE in politics don't pay for him and abuse of Brown made votes for Taylor.

—One of our exchanges, usually a very truthful paper, perpetuates the following, which is to say, the best family. A farmer recently hired a very inexperienced boy out of the reformation to help about the place. One morning he told the boy to take out a quart of salt and rubbed it all over the calf, washing it into the hide, and going not after the calf. They licked all the hair off the calf's back and tried to lick the hide off, too. The farmer tried to catch the calf and had to shoot it, because he wanted to lick too, kept out of the way. The boy, calf and farmer, are all unhappy. The cows are the only ones who had the fun.

Now is your opportunity to buy a pair of celebrated Brown Shoes. All go at cost at Buchanan's.

"DEWEY?"

I CUESS WE DO!

W H A T?

Lead the Market in the Lines We Handle.

There are none in this section that are our Superiors in Quality of Goods or in the making of Low Prices.

READ THE ITEMS BELOW.

Shoes.

A Shoe selling now for 50 cents that are usually sold for not less than \$1.25.

Clothing.

A good Suit of Clothes for \$3.00.

In Harness and Saddlery we are headquarters.

Groceries.

In our Grocery line we quote: Arbuckle Coffee at 10c per package. Fresh Mine Meat, in packages, at 10c. Chicken Tamale, in cans, delightful for lunch, at 10 cents. Old-fashioned canned Lye Hominie, 10c. Best Flour per barrel, \$4.00. Sugars, Coffees and other things, at the very lowest prices.

Hardware.

As full and complete a line of Hardware as can be found in the city, and prices are right.

W. B. SHAW.

Waris W.

The fighting in South Africa between the English and the Boers is represented as being very fierce and is attended with great loss of life. The cruelty of war is so terrible that it does look to be inhuman and brutal for nations to ever engage in it. Our Christian civilization should be able to avert war by sensible and reason able terms.

Friflight Failures.

Such terrible failures of six different drivers nearly sent Wm. H. Mullens, of Union City, into early grave. He said he had a fatal heart trouble and that he must soon die. But he was urged to try Dr. King's New Discovery and he did so. He was given five bottles he was entirely cured. It is particularly guaranteed to cure all diseases of the heart, lungs and liver, including the Colds, La Grippe, Pneumonia, Bronchitis, Asthma, Hay Fever, Croup, Whooping Cough, 50c and \$1.00. Trial bottle free at all drug stores.

As to Long Life.

Diagrams prepared by an expert for one of the largest insurance companies to illustrate the comparative longevity of clergymen, farmers, teachers, lawyers and doctors, show that 42 out of every 100 men die before the gospel age of 70. The figures come next, their proportion for 70 years being 40 out of 170. Next come the teachers with 34; the lawyers 25; the doctors last with only 24 out of 170.

How a "Good Thing" Works.

The central method of trust organization is to crush competition. Its main motive is to establish monopoly.

Should individual enterprise have the temerity to embark in the production of any article which the trust is producing but one result will follow. The individual enterprise will be destroyed.

Competition and a trust cannot co-exist.

A trust tolerates no division of profits with a competitor.

Trade autonomy is its essence.

It reigns means absolute monarchy over the market.

The typical methods of trusts are set forth in the following:

DON'T FORGET THAT

HARNESS and BUGGIES

ARE CHEAP!
AND FULLY GUARANTEED,
—AND THAT—

In Cash we Trust,
And Prices we Bust!

WHEN THEY GO IN.

The newly elected Governor of Kentucky will be inaugurated on the fifth Tuesday after his election, which this year will be on December 12th. The Lieutenant Governor and other State Officers will take charge of their offices at the same time. The Governor is elected for a term of four years, and should he die before his term of office expires the Lieutenant Governor is appointed to fill the vacancy and serve in that capacity until the next regular election.

The members of the General Assembly, the Representatives and Senators, take their offices on the 1st day of January following their election. The Representatives are elected for a term of two years, while half of the Senators serve two years and half four years. The length of their term of office is determined by lot at the first meeting of the General Assembly.

Another election which takes place this year, and one which is of National as well as local importance, is the election of a United States Senator. The successful candidate for this high office must receive the votes of a majority of the members of the General Assembly cast in a joint meeting.

Brave Explorers

Lake Superior and Livingston, found to be oxygenated water. Fever and Ague, and Typhoid disease germs than savage cannibals; but thousands have found that Electric Bitters is a wonderful remedy. It is a tonic, and you will have chills with fever, aches in back of neck and head, and tired, worn out feeling, a trial will convince you of their value. W. W. Mullens, of Union City, writes: "My children suffered for more than a year with chills and fever; then two bottles of Electric Bitters cured them. Only 50 cents. Try them. Guaranteed. Sold only by all Druggists."

EVER since the Presidential election, Democrats have been fighting Democrats. It is time to stop this suicidal policy and go to fighting the Republicans.

Rite a good peace about it and send 3 or 4 papers and we'll send em off for u.

MARRIED.

STONE—HUDSON, On last Wednesday evening at eight thirty o'clock, at the Cumberland Presbyterian church, in the city of Greenfield, Mr. Lowry Stone and Miss Anna Hudson were united in the bonds of matrimony, Rev. Anthony, pastor of the Cumberland Presbyterian church in Greenfield, performing the ceremony in his usual happy manner. The church was crowded with friends and loved ones before the time for the ceremony the church was filled with friends of both parties.

Mr. Stone grew to young manhood in Milan, and while no resided here, none were more popular in social and business circles than was he, having in Company K, 2nd Tennessee, and since he was mustered out has resided in Hickman. His bride is the daughter of Dr. Hudson, a man of great talents and by her talents and beauty of person, has won a host of friends in and about town.

Mondeloson's wedding march was beautifully rendered by Miss Eemie Sweeningen and during the ceremony the organ was played by Mr. Tom.

The attendants were Misses Ethel Lyon, Byrdie Ray, Alice Swain, Grace Shireman, and Ruthie Moore.

A. S. Stone, B. Taylor, Tansil Bradford, Fred Pearce and Chas. F. Baltzer, Ushers, Messrs. Sam Baker, Ernest S. Baker, Roger Rogers and Ed. Brown.

The presents received were handsome and numerous from their many friends and from various places. —Milan (Penn) Hunter.

at \$20,000.

Capt. J. P. Tyler and others are circling a list for the citizens to subscribe for the \$20,000 court House in this city. They will have the county court assemble here. The first man subscriber, \$1,000 and others \$500 each. The court will be one of the handsomest and have the most comfortable.

—Randie has moved his Jewelry store next to F. & M. Bank. Give him a call.

—Mrs. Virginia Gardner and son, of Martin, spent several days with Mrs. M. Randle, this week.

—Miss Lettie Wimsett, of Mayfield, and Mr. William Wimsett, of Fulton, are guests of Miss Mattie Travis.

—Randie has an expert Watchmaker and Jeweler. Give him your repair work.

—Miss Carrie Parham, a brother, of Covington, and a visiting Messrs. Bush and Bill Parham, near town.

—Miss May Glenn, who has been attending school in Greenfield, Ky., was in town this week, enroute to Tiptonville, next school.

—A large new supply of Carpet Samples just received. New Patterns and very cheap. Call and see them. 10-6-8.

H. C. AMBERG.

—The many friends of Mr. and Mrs. Jim R. Ford sympathize deeply with them in the death of their 5 year old daughter, who was said to have suffered at their home in Fulton, on Saturday night last. She was a bright, interesting little child.

—Congratulations are extended law day. See you the happy event of his marriage to Miss Sallie House. Tom Smith is one of the most worthy and popular young men in town. His friends of friends shower blessings upon him and his chosen companion.

—Big Bargains at H. Buchanan's Closing Sale.

—Mr. Eugene Blakemore, was accidentally shot through the leg, one day last week, while returning with a hunting party from Missouri. The gun was accidentally discharged, the ball going through the leg, inflicting a painful though not serious wound. He is improving rapidly.

—J. H. Tettleton, accused of murdering his stepmother and four children, near Malden, Mo., last April, was found guilty of murder at Kennett, last week, and sentenced to be hung on December 15th. Milo Giregor, another murderer, was also sentenced to be hung on the same date.

—Mr. Edmon, I take my pen in my hand, let me tell you what times is hard for us to take your paper. Hit us I ken do to bi terbacker for myself and boys, and hit a' takes money. I will pay you what I owe u now fawl when I sell mi hawgs; if they don't die with colery. N. B.—We've got an' a' baby at our house, come a' week ago last Thursday night. Rite a good peace about it and send 3 or 4 papers and we'll send em off for u.

DEHORNING CALVES.

When Properly Performed, This Operation Is Neither Painful Nor Very Serious.

The accompanying device for holding cattle, without hauling a heavy rack from farm to farm, gives entire satisfaction. It consists of a plank six to eight feet long and eight inches wide. Near one end four small leather holes are bored (A, and A and C, C). A three-quarter-inch rope is inserted from the front side, through the plank and tied in a knot. The other end of the rope is tied to the animal's nose, as shown in cut. Another three-quarter-inch rope, about eight feet long is inserted in the holes (A, A) and tied in knots on the back of plank.

You are now ready for action. Spike your plank up against the side of a barn or outbuilding, or in a stable door or stall. If a man is careful in holding stock it is a very easy matter to lasso an

HOW TO DEHORN CALVES.

animal about the horns and lasso it into the frame.

The animal's nose should first be inserted into the loop at C, C, when the rope at A, A can be thrown over the animal's head and held tight under edge of plank with the spike B. Spike D should be inserted in loop on back of plank to prevent animal from getting away when you have the animal securely fastened.

The animal is now ready to be held in this manner and no amount of pulling can loosen it until the job is done, when the helper can after a little practice let the animal loose as quick as a wink. The spikes should be made of tough hickory or ironwood about 1½ inches in diameter and 24 to 30 inches long, and should be driven in with a mallet. Spike D should be inserted in loop on back of plank to prevent animal from getting away when you have the animal securely fastened.

The animal is now ready to be held in this manner and no amount of pulling can loosen it until the job is done, when the helper can after a little practice let the animal loose as quick as a wink. The spikes should be made of tough hickory or ironwood about 1½ inches in diameter and 24 to 30 inches long, and should be driven in with a mallet. Spike D should be inserted in loop on back of plank to prevent animal from getting away when you have the animal securely fastened.

As to the question of clippers, the ones in use here are of the bevel draw plan, that of whittling from you, thus making a smooth cut next to the hair, thereby leaving a smooth surface to hold on. However, I have no doubt that any of the clippers advertised will do work properly. There has been a great deal of needless talk concerning the cutting of skulls with the clipping method, but there have been no cases of one crushed yet. The horn is off the ground rapidly. Some put on tar, but we do not see why. It will keep away flies, but we do not see why. And dirt, as is well known, causes irritation. Something must be put on to form a smooth, dry seat, that will resist dust.

The proper time to dehorn is when the animal is in the stall. Any time after the calf is ten days old the horns can be lifted with a dehorning gauge, and this is when you start the formation of a natural muley head, which is hard to imitate, even with clippers, after growth has been started.—George W. Brown, an Ohio Farmer.

GOAT SHEARS AND SCISSORS.

With the coming of the automobile we presume many suggestions will presently appear in print as to the need of better highways and advice to farmers as to when and how the roads should be improved. That the roads should be improved is a good idea, but that the farmers should do the work or meet the expense of it so as to make \$1,000 horseless vehicles popular and practicable and then let the expense of maintaining the roads fall on the farm strikes us not as being quite right. The injustice of compelling farmers to give the land devoted to public road purposes and then maintain the roads for public use while the automobile manufacturers make the cry for good roads—Colman's Rural World.

Sheep as a Cover Crop.

Sheep as a cover crop is worthy of the consideration of those that have lands that they intend shall be bare during the winter. Where replowing in the spring is not practicable, and why the spring plowing should not include the turning under of a green crop, preferably rye. This not only increases the amount of fertility in the soil, but prevents the washing and leaching of the soil.

Sheep as a cover crop is the best crop profitable on light soils, for these are the most given to leaching. Sheep has the advantage over some other crops in that it may be used as a pasture and profitably so. These days who is not the reader of a practical agricultural paper is making about as accurate progress as a ship without a rudder.

The dairyman who has an educated mind and needs it will not allow his cow to sift into the open top of the milk pail and then strain it out through the funnel.

If farmers would seek to give their sons an agricultural education in some of our numerous agricultural schools there would be less of them drift into the unprofitable professions.

A Babcock milk tester is an necessity in a creamery or cheese factory as a plow is on a farm.

FACTS ABOUT ROADS.

Authentic Figures Showing What It Costs to Haul Produce in the United States.

The condition of roads in the United States, taken as a whole, can most clearly be shown in figures. If we can make a hypothesis of a horse team in an empty trailer, as to how long it takes each of them to haul a load of crops to town, how far he hauls it and what his time and that of his team are worth, we can readily ascertain what costs on an average to market a load of produce. One of the most important of the highway improvement committee of the League of American Wheelmen.

The number of these inquiries be sufficiently increased and extended over the entire country the result will pretty nearly show what it costs on an average in the whole United States to haul a load of crops to market. If with a team of horses and a team of men it costs \$1.00 to haul a load of 1000 pounds, or the weight of the load, we can figure out how much it costs per 100 pounds, or per ton, to market all these crops, and if the inquiry also include the number of miles comprising each road we can figure out the cost of hauling those crops per ton per mile. This gives a unit which can be compared with the same unit, similarly obtained, by similar inquiries made in other countries.

An inquiry of this kind was made in November, 1895, by the United States department of agriculture, through its office of road inquiry. Ten thousand circulars were sent out to farmers in all parts of the country, asking for information in these various particulars. Replies were received from over 1,200 counties, distributed throughout the United States, and the results were remarkable. The weight of loads hauled varied between an average of 24,900 pounds in the prairie states and an average of 1,597 pounds in the eastern states, the average weight of farm produce for the whole country being 2,000 pounds, or practically the same.

The means of attaining this object are simple. The weight of loads hauled varies between an average of 24,900 pounds in the prairie states and an average of 1,597 pounds in the eastern states, the average weight of farm produce for the whole country being 2,000 pounds, or practically the same.

The means of attaining this object are simple. The weight of loads hauled varies between an average of 24,900 pounds in the prairie states and an average of 1,597 pounds in the eastern states, the average weight of farm produce for the whole country being 2,000 pounds, or practically the same.

School children sitting at their desks, children sitting over their desks, all at work with the needle or the sewing-machine, typewriters, and all who must stoop as they earn their daily bread, should learn to stop from time to time, and take a deep breath, rise, stretch the shoulders, and draw in ten or twelve deep, slow inspirations, holding the breath for three or four seconds each time the lungs are filled.

These exercises, like breathing in general, are always to be practised when mouth closed, for the nose is the only proper channel for the passage to and fro of the air. A school-teacher who will interest the students once every month in this exercise, will be doing a great service to the future well-being of her youthful charges.—Youth's Companion.

PROPER BREATHING.

It Adds Beauty and Strength to the Body and Makes Sound Lungs.

We have often spoken in this column of the necessity of breathing properly, if the body is to be kept in the best possible health, and free from disease. The subject, however, is of such vital importance, as regards especially the prevention of lung diseases, that no apology need be offered for returning to it.

Of all the organs of the body, the lungs are the most important, as they are absolutely indispensable as oxygen, and as this is taken in with the air we breathe, whether we receive a sufficient supply or not, depends entirely upon health and where we breathe.

But the supplying of oxygen is not the only function, although it is the most direct and vital one, of proper breathing.

Through expansion of the lungs, the heart is strengthened, and good spirits. It tones up the nerves, and the muscles, regenerates the blood, and cures all forms of dyspepsia. All drug

TOXIC POISONING.

Whether of tea poisoning are becoming alarmingly prevalent. Women demand the tea, and insist on its being made of tea, it naturally in building up their systems as they resort to tea. They should take Hostetler's Vegetable Compound, which strengthens the digestive organs, this brings health and good spirits. It tones up the nerves, and the muscles, regenerates the blood, and cures all forms of dyspepsia. All drug

DR. GATLING'S INVENTION.

Automobile Plow to Supersede Implement Now Used.

Chicago, Ill., Nov. 15.—Dr. Rich- ard Gatling, who revolutionized methods of warfare by inventing the rapid fire gun that bears his name, is now engaged in turning the sword into the plowshare. After spending half a century in making instruments of death, he is directing his efforts to making machines that will be of benefit to mankind.

Dr. Gatling came to Chicago with Mrs. Gatling to arrange for the manufacture of his new inventions. With his automobile plow he expects to supersede the board plow that is now in general use for the preparation of land for cultivation. The plowshare will be built on the principle of the automobile, with disk plows so arranged as to do the work of the instruments now in use with greater facility and at a greater saving.

Dr. Gatling proposes to build the machine so that it can be started by one man. It will do the work of eight men and twelve horses. The propulsion power will be either gasoline or oil. In addition to its primary use in the field, the machine can be used in driving a thresher, shelling corn or for hauling purposes.

Foot Ball Bad.

The Mexican ball-fights are little, if any, worse than foot ball, and the casualties in the prize ring are not so great. Foot-ball, ball fighting and prize fighting are of the same complexion, and one is about as Christian in its "athletic" features as the other.—Texas Baptist Standard.

A Prosperous County.

In Union County, Ga., there is not a bar-room, and 75 per cent of the people are own homes. Only one head of a family in the county does not own his home. There is not a dollar of bond on the county, and with the rate three times larger this year than usual the total State and county tax amounts to only \$1.15 on the \$100.

Let us hope that the Gatling plow will take the place of the Gatling gun in the estimation of all governments desirous of leading in the onward progress of civilization.

Tax-hunting citizens of Tiptonville have individually subscribed to a sufficient amount of stock to put in a fine system of waterworks and water on the system will begin in a few weeks.

Tax vote polled is the smallest ever polled in a Governor's race in eight years and is over 150,000 less than in the Presidential race. Central and Eastern Kentucky did well by Gobell.

The annual report of the Fourth Assistant Postmaster General, issued last week, shows a total of sixty-two presidential post-offices in the State of Kentucky. There are 2,830 fourth-class offices, 455 being money order offices. The State has 11,000 postmen, 1,000 double offices, tenth in population, sixth in fourth-class offices, and forty-eight in compensation of fourth-class postmasters, the average salary being \$100.97 per year. The gross receipts of all offices in Kentucky were \$1,318,420.76.

Used by British Soldiers in Africa. Capt. G. G. Denison is well known all over Africa as commander of the forces that captured the famous rebel Galilee. Under date of Nov. 4, 1897, from the British War Office, he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic Chasers and Diarrhoea Remedy with the intention of giving it to my men, and had given to my men, and in every case it proved beneficial." For sale by Cowgill & Cowgill, Hickman, and A. M. Shaw, State Line, Druggists.

TEST STILL TO COME.

That the administration should not have been able to make a better showing than that of last Tuesday's election in twelve States is a fact full of significance as bearing upon the Presidential contest of 1900.

It is claimed by the administration party and by administration supporters that a majority of the people of this country are in favor of the President's policy of American expansion into the Eastern Hemisphere. Where do they find an expression of this sentiment in the recent elections?

In Massachusetts, where the free war was almost exclusively on the expansion issue, the Democratic party made surprising gains. Ohio was held for the President only by the exertion of all the administration influence. In no State of the twelve did the vote show that the President's Philippine policy strengthened the Republians and Messengers.

The issue of imperialism, of expansion by the conquest of foreign territories, will come clearly before the people of all the States in 1900. There is reason to believe that the popular vote will pronounce unequivocal public condemnation of this un-American policy. The Democrats will make cause for greater confidence than ever that the people of this country are not yet ready to repudiate American principles for the gain of foreign territory or the government by force of weaker peoples.

FROM GUNS TO PLOWS.

Doctor Gatling, who has shown such proficiency in inventing machinery for mowing down man, is credited with turning his mental faculties to an opposite direction and inventing devices for mowing down wheat. His devices for promoting the "planting" of his fellows are to be abominated for in some degree by his contrivance for planting corn and other things to upbuild human beings and keep them alive.

The distinguished inventor of one of the most destructive agencies of modern warfare is arranging plans for the manufacture of an automobile plow which will be manipulated by a wheeled vehicle propelled by gasoline or oil.

We want the man to be Governor or who has been elected by a plurality of the votes. If Mr. Goebel has been honestly elected he should be Governor, and if Mr. Taylor has been honestly elected he should be it. It is such a close finish that it takes the official count to decide it.

OBITUARY.

Died, at the family residence in Fulton, on Saturday evening, 11th inst., GLADIE, the only child of Mr. and Mrs. Ford.

Gladie was a bright and sweet little girl—the idol of fond fond parents. Oh, so sad to see how lonely home will be without Gladie's smiles. Let me look to Him, who doeth all things well, and say: "They do evil daily." Little Gladie is now an angel in Heaven, waiting and watching for us as we cross the dark Valley of Death. Now will we never forget her. No, not until the last strings cease to vibrate once more, will the echo of little Gladys cease to be remembered.

Tenderly close the eyes of our darling. Fold her tiny hands o'er her breast. Look the last look upon our darling. See her little face, so pale and rest. She has crossed death's stormy waters.

Where trials cease for evermore; where there'll be no more farewells, For in Heaven we'll part no more.

Farewell, precious angel boy. You are on the golden shore.

Bye and bye meet you, Gladys. On that happy gold shore.

A FRIEND.

MRS. NELLIE BROWN.

On Thursday evening, Nov. 2nd, at 2 o'clock, we were called on to pay the last tribute of respect to all that was mortal of NELLIE L. BROWN, wife of B. Brown, who was born March 26th, 1862, and died Nov. 1st, 1897, 35 years, 7 months and 7 days. She was the mother of seven children—5 boys and 2 girls—two dead and four living. She was a member of the First member of the church until the day of her death. God, in His providence, had given her a long and useful Christian life. Many are the deeds of useful Christian charity which she has done; many are the noble services which she has rendered to God and to God; many are the friends she has made; but she is with them no more—her spirit has gone to God. God gave it to her to come to us, and to us from whence it came. Sweetly she sank to rest as a tired child, with visions of the bright beyond, where loved ones gathered around her, and then in the dark, chilly waters of death closed around her shrank not, but launched out into the ebbing tide, knowing that she could not drift far from the shore of love and care. While we may not be able to understand it, yet we believe this dispensation of God's presence with her was good and His glory. "This woman was full of good works and alms deeds which she did, let her works praise her." Quiet and sweetly sleep on, Nellie, until the resurrection more.

SISTER FANNIE.

False Pride.

When you see a youth who will do more work for no matter how mean it is to be, rather than be idle, you can make up your mind that he amantees something. The young man who would starve before he would do any thing beneath what he conceives to be his dignity, is not made of the right stuff to cut much of a figure.

All honest till is honorable; there is nothing so morally degrading as that aversion to manual labor which is usually a combination of laziness and conceit.—Made Young Again.

It will not be a surprise to any one who are at all familiar with the good qualities of Chamberlain's Cough Tonic, to know that people everywhere are in favor of the President only by the exertion of all the administration influence. In no State of the twelve did the vote show that the President's Philippine policy strengthened the Republians and Messengers.

"One of Dr. King's New Life Pills will give you two hours of pure enjoyment in any scenes," writes D. H. Tamm, of Duncansville, Pa. They're the best in the world for Liver, Stomach and Bowels. Purely vegetable. Never grape. Only 25¢ at all drug stores.

Fair Play For Cuba.

"Ask me about the Boer war," said General Fitzhugh Lee, just returned from his long period of service in Cuba, "ask me about the election, but don't ask me about Cuba or annexation. It's a mix-up."

As General Lee has been from the very beginning a spokesman advocate of the granting of national independence to the Cubans and of extending them all possible assistance in the establishment of a Cuban Republic, it is evident from this expression that he is not at all satisfied with the outlook for the fulfillment of American pledges to that effect. But, as an officer of the United States army, he naturally hesitates to criticize the administration.
